Icahn School of Medicine at Mount Sinai
New York, NY

May 20-21, 2017

Register at www.CosmeticWorkshop.NYC

Sponsored by
The Kimberly and Eric J. Waldman
Department of Dermatology

A course designed for physicians and trainees in the field of:
Dermatologic & Cosmetic Surgery
Facial Plastic Surgery
Plastic Surgery
Oculoplastic Surgery
Maxillofacial Surgery
COURSE DESCRIPTION
This workshop is designed to provide practitioners and residents in the core aesthetic fields a comprehensive demonstration and training in soft tissue rejuvenation and reconstruction techniques. During the hands-on sessions, the latest techniques will be demonstrated by the experts performing procedures on live patients and on synthetic models. Participants will take home “pearls of wisdom” from the experts and experience hands-on training in the small group workshops. The course format will consist of lectures, panel discussions, question and answer sessions, and hands-on lab.

TARGET AUDIENCE
Physicians, Residents and Fellows from the five core specialties performing reconstructive and cosmetic surgery, dermatologic surgery, ENT (facial plastics), plastics, oculoplastics and maxillofacial surgery.

OBJECTIVES
Upon completion of this CME activity, the participant will be able to:

• Demonstrate proper patient selection for medical, surgical and cosmetic intervention for dermatologic and surgical conditions based on careful consideration of risk and benefit and the published guidelines.

• Evaluate and demonstrate knowledge and skills in dermatologic surgery, cosmetic dermatology, ophthalmologic surgery, oculoplastic surgery and maxillofacial surgery to improve patient outcomes.

• Assess recent advances in surgical and minimally invasive cosmetic procedures with emphasis on safety and efficacy for better patient outcomes.

• Compare alternative nonsurgical methods of facial rejuvenation including a range of fillers and fractional ablative technologies and formulate treatment plans based on known effectiveness of the therapy.

• Demonstrate and perform various reconstructive and cosmetic procedures on synthetic cadavers as well as on live patients through a multi-specialty approach which is aimed at improving performance in practice.

• Define and recognize knowledge and skills in human facial anatomy, danger zones, and common reconstructive and aesthetic techniques used in facial surgery.

• Apply knowledge regarding recent advances in the effective and safe treatment and management of cosmetic challenges and facial oncologic pathology.

ACCREDITATION
The Icahn School of Medicine at Mount Sinai is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation
The Icahn School of Medicine at Mount Sinai designates this live activity for a maximum of 16.50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AAD Credits
The Mount Sinai Spring Symposium “Advances in Facial Reconstruction & Cosmetic Surgery” A Hands-on-Cadaver Workshop - Board Review Program (Program #58100) is recognized by the American Academy of Dermatology for 17.00 AAD Recognized Credits and may be used toward the American Academy of Dermatology’s Continuing Medical Education Award.

Registered participants will be provided with a link to the Course Syllabus.
**FACULTY DISCLOSURE**

It is the policy of Icahn School of Medicine to ensure objectivity, balance, independence, transparency and scientific rigor in all CME-sponsored educational activities. All faculty participating in the planning or implementation of a sponsored activity are expected to disclose to the audience any relevant financial relationships and to assist in resolving any conflict of interest that may arise from the relationship. Presenters must also make a meaningful disclosure to the audience of their discussions of unlabeled or unapproved drugs or devices. This information will be available as part of the course material.
SATURDAY, MAY 20, 2017
